Reference FEMA Specific Rating Guidelines pages 1-17 through 1-25

IF

1. LAG is less than 2' above the top of crawlspace floor;
2. Top of next Floor is less than 5' above the top of crawlspace floor;
3. And the top of next Floor is above the AO depth

Then we should be able to save her about \$430

Hello Tocky,  
Sorry for the delay in responding to your email. We would like to go ahead with the elevation certification if you are still able to do so. Please let me know what I need to do to start the process.  
Thank you!

Debra,  
It is end of day and I'm a bit frazzled but didn't want to forget to email you...  
Quick and dirty... Jim Homet and I believe that it is in your interest to do an elevation certificate to see if you can improve your premium based on your current AO depth 1' status (which will become AO depth 3' when the new maps come into effect). We can't be sure of the effect until we do one.  
My fee for the certificate will be between \$400 and \$500 for Section E (not Section C). We have discussed that a surveyor is not required for this section but that Section C is not required for your flood zone. I'm attaching the certificate and instructions for your learning pleasure. If you want me to do the Certificate, you can just reply to confirm.  
Happy to answer more questions if you have them.  
Tocky
